To align with the Government's latest adjustments to the vaccination requirements of the Vaccine Pass, the College has further enhanced campus access control starting from 7 June 2022 onwards. Please refer to the table below for implementation details.

Relevant Date	Infected / Uninfected	Minimum COVID-19 Vaccination Requirements
From 7 June 2022	Persons aged 18 or above	3 doses (or 2 doses for those who have had their second dose within the last 6 months)
	Recovered persons within 6 months from recovery*	No additional dose required
	Recovered persons who had received second or third dose before COVID-19 infection*	No additional dose required
	Recovered persons after 6 months from recovery, who were not vaccinated before COVID-19 infection*	2 doses (or 1 dose for those who have had their first dose within the last 6 months)

* (i) "Recovery" is defined as 14 days after the date of the most recent documented positive test. (ii) Recovered persons must present the official proof of recovery or infection at the time of entry. Official proof of recovery or infection includes documents such as discharge letter, SMS/electronic/paper record of positive nucleic acid test result issued by the Government or private laboratories recognised under the Laboratory Recognition Scheme of the Department of Health (DH), SMS/electronic record of completed declaration on DH's "Declaration System for individuals tested positive for COVID-19 using Rapid Antigen Test", isolation order issued by the DH, and other recovery records issued by the Government or the Hospital Authority. Photographs showing positive rapid antigen test results alone CANNOT serve as a valid recovery or infection record.

If you are exempted from vaccination, you must present a medical exemption certificate issued by a medical doctor plus a negative result of a COVID-19 test taken within three days prior to the entry.

We seek your understanding that all the infection control measures are implemented to safeguard the health of the community. Please stay safe and positive.
